Your Medical Records

We are required by the College of Physicians & Surgeons to store all original patient records for a period before they can be destroyed. We have selected **RSRS**, a physician-managed company to safely and securely store all patient records from the practice. They will also assist you in **obtaining a certified copy for yourself**.

You are advised to obtain a certified copy of your personal medical record from RSRS. It is a very important file for your continued and safe healthcare management, and should be accessible at all times, **especially in the absence of a new doctor**. We have included an infographic illustrating 10 reasons why the record is so important. Note: there is a fee for the copy/transfer of medical records, however it is not prohibitive. Please do not delay in making arrangements by contacting RSRS today at:
