Your Medical Record

I have appointed **RSRS**, a physician managed storage records company to store all the paper and electronic medical records from my practice in accordance with College guidelines. RSRS will also assist you in obtaining a scanned copy of your medical record for Dr. Vyas'/Dr. Hui's/Dr. Erimona's practice and/or for yourself, or for any other doctor you may wish to see.

The medical record is a very important file for safe continuity of your healthcare. It contains all of your vital medical information including investigations, procedures, consultations and reports. While there is a fee to produce a digitized copy of your record, RSRS will work with you to ensure that you will get the information you need. Please do not delay in making arrangements by contacting RSRS in one of the following ways:

Sincerely,
