Notice of Practice Closure

Dear Patients:

It is with mixed emotions and after much consideration that I have decided to retire from my family practice. **My last day of patient care is June 30, 2026.** I am sincerely thankful to you, my patients, for trusting me with your care for over 40 years. It has truly been an honour and a privilege to be your family doctor and I am incredibly grateful for the opportunity to care for you and your families through so many important moments in your lives.

Finding a New Doctor

While I was unable to arrange for another physician to take over the practice, I want to support you any way I can so that you have ongoing care as required. You should obtain a copy of your own medical record copy (see below). Additionally, here are some resources for ongoing care:

1. Contact Tele-Care 811 by dialing 8-1-1
2. Search for Patient Connect at <https://gnb.ca>
3. Ask family and friends if they can try and get you in with their doctor.
4. Speak to your local pharmacist who may be aware of new physicians in your area.
5. Contact **RSRS** (see below). They often know of physicians accepting new patients.

If you have an urgent medical matter in the absence of a doctor, please proceed to the nearest emergency room.

Your Medical Record

I am required by the College of Physicians and Surgeons to store all original patient records for a period before they can be destroyed. I have selected **RSRS**, a physician-managed company, to safely and securely store all patient records from my practice.

*Your medical record does not automatically follow you when you lose your doctor... unless you arrange for it. **RSRS will assist you in obtaining a certified copy of your record for your continued care. I encourage you to obtain your medical record as it is your health fingerprint** and is a very important file for safe continued care. It should always be accessible, even and *especially in the absence of a new doctor*. Once you find a new doctor you can share a copy of your own personal copy. I have included an infographic illustration which explains the reasons the medical record is so important.*

Note: My office will NOT be involved in the record transfer process. This will only be done through RSRS. RSRS might also reach out to you to ensure that this notification has been properly received and to assist you further. You can contact RSRS in one of the following ways:

www.recordsolutions.ca/DrRAGoodine

Tel: 1-888-563-3732

Fax: 1-877-398-5932

Email: info@rsrs.com

(Please note: You can arrange for a copy of your medical record immediately, however unless it is an emergency, the actual delivery of your requested medical record will take place only after my practice closes. There is a fee for the copy/transfer of your medical record in accordance with guidelines but the fee is not prohibitive.)

It has been a pleasure to assist you with your health care needs. I wish all of you the best with good health for the future.

Sincerely,
R. Goodine

Dr. Rose Anne Goodine

*RSRS is a physician-managed medical records storage facility. They are fully compliant with the guidelines set by the College of Physicians and Surgeons of New Brunswick and the relevant privacy regulations.
