NOTICE OF RETIREMENT

October 2017

Dear Patients:

It is with mixed emotions that I am writing to inform you that I will be retiring from family practice. My last day seeing patients will be **December 28th, 2017.**

Finding a New Doctor

Unfortunately, I have not been able to find anyone to take over my practice, therefore, I would urge you to begin seeking another health professional to take over your care.

Victoria Medical Society at www.victoriamedicalsociety.org/gp-listings/ ph: 250-598-6021

College of Physicians & Surgeons of British Columbia at www.cpsbc.ca/physician_search. ph: 604-733-7758

Both sites provide a list of doctors accepting new patients and may be helpful in your search.

Also, consider using your personal network to find a physician. A family member or friend may be able to ask if his/her doctor is taking new patients.

Your Medical Record

Your original medical record must be safely stored for a period of time before it can be shredded.

I have arranged with RSRS, a physician-managed facility to safely store all records from my practice and assist you in obtaining a certified copy. Your medical record is very important for the future of your healthcare. I strongly urge you to obtain a copy as soon as possible, regardless of whether you find a doctor immediately, and whether you or your new doctor takes a copy. It is important that you have access to this information whenever it is needed.

**Please go online to
www.recordsolutions.ca/drfreigang/
or contact RSRS at
1-888-563-3732 Ext. 1**

(Please note that there is a fee for the copying and transferring of medical records).

Making the decision to leave my practice has not been easy, and leaving practice with so many wonderful patients will be the most difficult part. I have valued the trusted relationship we have developed and I truly appreciated the opportunity to help manage your healthcare needs.

Thank you for the privilege of being a family doctor for all these years. I wish you and your family the best of health in the future.

Yours truly,

Dolores Freigang MD
